

YOUR HEALTH IS YOUR BEST INVESTMENT

Connect & Care ensures that your health and healthcare needs stay focused on you. We provide attentive, service-focused, comprehensive care and an evidence-based approach to your health, wellness, prevention and any existing conditions.

CUSTOMIZED

You are unique and your healthcare should be too. Connect & Care is patient-centric care – it focuses on you.

Preventive healthcare, wellness, or chronic condition management needs receive tailored strategies with exceptional results.

QUALITY

Your existing health or care needs are matched against established quality metrics and evidence-based clinical guidelines.

ACCESSIBLE

Access to services is available 24/7, supported by mobile technology, includes outpatient and inpatient care, and is not geographically restricted. Your health information is available, whenever you need it.

CARE NAVIGATION

The cornerstone of good care is receiving the right care in the right setting to obtain the best outcome. These decisions require expertise in site of care delivery, quality metrics, and resource utilization.

Connect & Care –
it's like having a
doctor in the family!

Your Health. Our Team. Great Care.

Does Connect & Care replace your doctor?

No. Connect & Care augments your existing healthcare relationships. Constant surveillance and monitoring are the cornerstone of good health. Your primary care doctor does not have access to the whole team or suite of services needed to ensure health and wellness.

You get an annual physical, why do you need Connect & Care?

Connect & Care goes beyond the annual physical. Oftentimes, your doctor may not spend adequate time or does not have the resources to provide constant attention to disease prevention and wellness, and ensure early detection and disease mitigation.

Can Connect & Care coordinate all your care needs?

Yes. Connect & Care staff will work with all your providers and ensure that your medical information is up-to-date, accessible, and portable. We ensure all care is provided by highly-rated providers.

Will Connect & Care continue to provide services if you are in the hospital or other healthcare facility?

Yes. We provide care coordination and transition of care services across the entire care continuum.

Do you still need to carry health insurance?

Yes. Our program is compatible with commercial health plans and Medicare / Medicare Advantage programs. Insurance coverage is still necessary for specialist care, diagnostic testing, or hospitalization.

Can fees be paid with an HSA or FSA account? Is it tax-deductible?

Yes. Services are reimbursable with HSA or FSA accounts, and we provide the necessary documentation to submit to your plan administrator. Your tax advisor can determine tax status in your case.

Individual & Family Plans

Connect & Care provides high value, attentive, accessible (concierge-like) healthcare services to individuals and families. "It's like having a doctor in the family".

Healthcare Decision Support

Connect & Care understands your medical condition and needs. Our experts provide opportunities for dialogue, help you understand complex diseases and treatments, discuss options, produce medical evidence, and support shared decision-making strategies.

Choosing the Best Health Coverage

Connect & Care experts help you select the best healthcare coverage for you or a member of your family. We can find the best option for Medicare, Medicare Advantage, Supplemental and Commercial plans.

+ Your Connect & Care Team includes:

Physicians (representation from each of 24 specialties), Nurse Case Managers, Pharmacists, Psychologists, Certified Health Coaches, Nutritional Therapists, Rehabilitation Specialists, and Care Coordinators. In addition, the Connect & Care platform is supported by a dedicated team of expert software developers.
